Name: David Dodge

Role:

Firm: Engineering & Environment, Inc.

Years of Experience: this firm: 4; others: 29

Education and Training: MS Environmental Engineering, University of Texas El Paso May 1999, MS Mechanical Engineering, University of Texas El Paso, December 1967, BS Mathematics, University of Missouri June 1963, Registered Environmental Manager #11249, Certified Toxic Mold Inspector #1079, National Registration of Environmental Professionals.

Experience Overview:

Mr. Dodge is the Defense Environmental Restoration Program Project Manager for Engineering & Environment, Inc. at Fort Bliss, TX, providing technical expertise and coordinating restoration projects for all Federal and state agencies. His thorough understanding of CERCLA and RCRA have enabled her to provide technical review of work plans, sampling and analysis plans, and risk assessments as well as manage many CERCLA sites with multiple applicable or relevant and appropriate (ARAR) considerations. Mr. Dodge was the FY 01 Secretary of the Army Runner Up as Team Leader of the Fort Bliss Environmental Restoration Team for remediating twenty-eight hazardous waste sites in three years. In FY 02 he was recognized as the Fort Bliss Environmental Professional of the year. He presently manages eight environmental remediation contracts with a net value of \$4 + M. Mr. Dodge was selected to manages the first Military Munitions Response Program unexploded ordnance removal project on an active Army installation

Selected Projects and Highlights:

Prior to receiving his MS in Environmental Engineering and coming to work for Engineering and Environment, Inc., Mr. Dodge has been a project manager of large mechanical and civil construction and remediation project for the past 29 years. Those projects have ranged in size from \$500,000 to \$35 M dollars spread across the United States from Virginia to New Mexico. Many of these projects were for public owners including the US Army Corps of Engineers. In the past four years Mr. Dodge has worked exclusively on military environmental restoration projects.

Mr. Dodge was also a Mechanical Project Manager for an Independent School District in El Paso. He was the single manager for twenty-three environmental contracts totaling + \$5.5M, including District's Indoor Air Quality and mold remediation programs. He managed an additional three major MEP contracts and EPISD non-employee insurance program (19 policies, \$1.8 B total coverage). Designed and managed the District's Recycling program which saves the District over \$120,000 (net) each year.

As a Construction Project Manager for various Commercial/Industrial Firms in El Paso, TX he managed multi-million medical, manufacturing and food service projects which consisted of personally supervising multi-craft crews of 30 to 150 men and 8 to 12 subcontractors at multiple sites serving 45 national and international clients. During this time he held a Texas MM 98 (full mechanical) license and a New Mexico Air Conditioning and Refrigeration Contractor License. He planned, specialized, and managed the construction of 21 industrial and office buildings with all interior build outs, including mechanical and plumbing in excess of 2 million square feet total.

Division Manager and Senior Vice President at Robert E. McKee Construction in Denver, CO and El Paso, TX. There he managed 33 graduate engineers and over 300 field personnel with \$473 million in construction projects.
